REMARKS

A Sequence Listing is submitted herewith. The Sequence Listing shows sequences that were present in the subject application as filed and, therefore, does not add new matter.

The specification has been amended to insert Sequence Identifiers as appropriate. As such, the amendments merely address a formality, and do not add new matter.

In the Notice to Comply the Examiner cites an amino acid sequence represented at page 8, line 2 and page 13, line 9 of the present application. The Applicants would like to bring to the Examiner attention that after reviewing the specification the above-mentioned amino acid sequence was not identified. Thus, the amino acid sequence was not assigned a sequence identifier "SEQ ID NO:" and was not included in the Sequence Listing.

The Examiner is invited to contact Applicants' undersigned representative if there are any questions regarding the subject application. The Commissioner is authorized to debit (or credit) Deposit Account No. 07-1896 if any fee is required (or if there is any overpayment).

Respectfully submitted,
